Thread: [What should I build in 2026 to become a millionaire in the next 10 years ?](#)

JNath - June 14, 2026, 3:41 am

Hello Hackforums. I know many experienced people are here! Guys I've been making for quite a few years now but I'm still like very far from being a millionaire. So as AI is booming and everyone is moving towards it. I was wondering what businesses or ventures I can start to make a million USD in the next 10 years ?

I'm based in India btw. Thanks!

You could invest in cryptocurrency like Bitcoin. If you believe in it.

Buy bitcoin and buy gold for long term investment.

Invest in stocks or build something to help people with medical issues because you would make a lot of money.
