PLACEBOCRYPTER
Telegram Crypter Service | .NET & Native | Longest FUD

??

? WHAT IS PLACEBOCRYPTER?

PLACEBOCRYPTER is a Telegram-based crypter. No websites. No accounts. Just message us on Telegram, upload your file, and get your crypted payload instantly.

Works on any device. If you have Telegram, you're good.

- ? The most stable crypter service on Telegram
- ? Supports .NET and Native
- ? The longest FUD in the market

? BYPASS CAPABILITIES

Fully undetectable against all major antivirus engines.

- ? Bypasses Windows Defender
- ? Bypasses Kaspersky, Avast, AVG
- ? Bypasses Bitdefender, McAfee, Norton
- ? Bypasses 30+ other AV engines

Your payload stays FUD after distribution.

? PRICING

\$100 PER CRYPT

? FEATURES

? TELEGRAM SERVICE

Simple and fast. Send file -> get crypted file. No website needed.

? CRYPTING ENGINE

.NET and Native support. Longest FUD in the market. Stays FUD after distribution.

? AV BYPASS

Bypasses Windows Defender, Kaspersky, Avast, AVG, Bitdefender, McAfee, Norton, and 30+ others.

? HOW TO USE

Step 1: Contact us on Telegram

Step 2: Send your .exe file

Step 3: Wait a few seconds

Step 4: Download your crypted FUD payload

Contact for support or orders: [deleted][b]

? IMPORTANT NOTICE ?

I DO NOT accept payments directly through Telegram.

All payments must be made via a Hack Forums contract. This protects both you and me.

No contract = No service. No exceptions.

Telegram is for communication ONLY, NOT for payments.

? VOUCH COPIES

Vouch copies are available for high reputation members only.

I do NOT give vouch copies to vendors who sell the same service.

I don't recommend him. I contacted him on Telegram and paid him, but he hasn't sent anything, just kept saying "wait"... and nothing. It's my fault.
