A family of four are suddenly sealed inside their home with no way out, and must work together to survive against both their dwindling resources and the mysterious, looming threat that is keeping them trapped.

Looks super interesting.

Very interesting and clever horror movies coming out lately. Didn't know about this one but looks promising.

Indeed, from the trailer it looked like it was going to be really good.

It started off nicely, got even better towards the middle, but unfortunately the ending disappointed me.
