Hello!

Is there anyone who can offer Facebook Page Likes or Post Likes and also Instagram followers?

If yes, are they organic or fake accounts?

Is it safe to do this nowadays or the profile will be compromised and suspended in some poaint?

Quite a few sellers over here. [Social Media Services](#)

I think [SMMFlare](#) has options for organic or bot accounts. I haven't seen anyone banned over it due to the fact that it would be easy to get others banned by botting their comments.

Botting can risk your account getting flagged for integrity and shit
