That is not true, nobody is really spreading SC on its own right now. Plus it gets Smartscreen. Please stay off my thread.

If no Admin UAC will popup and ask Yes/No, this is what allows admin rights.

To expensive for something you can build for 50 dollars and some AI :) but good luck with sales, Screenconnect IS in fact a good loader, ive seen it used and if you can use it silent its definetely good.

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
