Infrastructure & Deployment for Custom Tools

VPS Setup · Server Hardening · Proxy Rotation · API Hosting · SSL · Nginx

??

Your tool is ready. Now you need it hosted, secured, and scaled.

We handle infrastructure setup, server hardening, proxy configurations, and deployment pipelines for custom tools and applications.

[BrandForge.gg](#)

???????????????????? WHAT WE DO ??????????????????????

? VPS Setup & Hardening
Fresh server, locked down, optimized for your specific workload.
Not a default install.

? Proxy & Rotation Systems
Residential proxy integration, rotation logic, IP management.
Built for scale.

? API Hosting
FastAPI, Flask, Node.js APIs. Load-balanced, rate-limited, production-ready.

? Database Setup
MySQL, PostgreSQL, MongoDB, Redis. Optimized, backed up,

monitored.

? CI/CD Pipelines

Automated deployment, testing, rollback. Push code, it goes live.

???????????????? RECENT WINS ??????????????????

-> Full-stack crypto trading platform — React + Flask + MySQL · Nginx · SSL · Production

-> SUI Blockchain App Fork — Vector DB + real-time pipelines · 2 weeks

-> Multiple scraper deployments with proxy rotation

-> API hosting for automation platforms

???????????????? TERMS ??????????????????

? Escrow & middleman accepted

? Crypto payments — USDC, BTC, LTC

? One-time setup or ongoing management

? Documentation provided

? Discretion guaranteed

???????????????? NEED INFRASTRUCTURE SETUP? ??????????????????

Send:

1. What you're hosting
2. Expected traffic/scale
3. Budget range
4. Timeline

If we're a fit, we'll map the fastest path forward.
