How Is This VantaBB Theme Preview?

Hello everyone,

Here is a preview of the VantaBB MyBB Theme.

I am working on a clean, dark, modern, and lightweight MyBB theme for forum communities and marketplace-style boards.

VantaBB is a clean, dark, modern, and lightweight MyBB theme made for forum communities. It is also a great fit for marketplace forums, service boards, digital product forums, trading communities, and professional discussion platforms.

Short Feature Info: Clean dark UI design

Modern header and footer

Responsive layout

Improved forum index style

Premium card and block design

Simple and user-friendly navigation

Professional look for service and sales forums

Please share your honest feedback and suggestions.

What should be improved, changed, or added?

If you want this type of custom MyBB theme design for your own forum, feel free to PM me.

I will keep updating more progress about this theme here.

I don't know if it's because I'm on mobile but I can't see a demo link or any photo previews of this theme

I am however impressed with your work and bookmarked your site in case I decided to put something together later. I really miss forum ownership and MyBB has always been my favorite.

Let me ask you this. What timezone are you in?

Edit: I just did some quick thinking and after surfing your site I added vantabb to the subdomain and.. Viola! What an amazing theme. I love that you've made them so mobile friendly. We'll chat soon

Hey, following up. I think I'm out of edits... but I just wanted to say I think Vanta is one of the nicest MyBB themes I've ever seen. Spent some time clicking around the pages and I'm really diggin' it.

What are you going to sell it for? Have you considered a price for an exclusive license?
