Thread: [LF Long Term Private USA number](#)

yeahbuddy - June 19, 2026, 12:16 pm

Hello there,

I am looking for USA number to activate services but I need it to be mine for atleast 30 days best, if not possible a week is okay too.

The service sometime will require reauth and this is why i need the number to be available and not public since service is well known and so that nobody will activate my profile via SMS.

Thank you and looking forward to this!

JuicySMS has a feature for this. I haven't used them in years though.

Why not use Google Voice?

Th3HulK - July 28, 2026, 6:16 am

Google voice should suffice
