Thread: [Telegram Channel takedown service](#)

insta_nick - June 28, 2026, 9:21 am

Hello,

I am looking for someone who can help me get a Telegram channel banned. I am ready to pay up to \$20 for it.

The channel has approximately 1,000 members.

Please feel free to start a contract if you provide this service.

Please use <https://hackforums.net/member.php?action=profile&uid=5550319> as the middleman in the contract.

Thank you!?

Careful of scammers, if you need a middleman shoot me a DM but make sure you use one.

Good call. I have added your profile to my initial post and asked them to add you as a middleman. Thanks!
