Thread: [Biggest L of 2026 so far](#)

Life has been hard for everyone im sure this year but sometimes sharing with others, helps you realize how easy you got it compared to others!

Its quite a humbling experience. Share your biggest L and if you have a win after that L that you'd like to share, go for it! An L is just a stepping stone that you tripped over, not an boulder that you cant avoid!

Lost over \$40,000.

As a reseller the biggest L is everyone broke not buying my stuff!

_V0X - July 1, 2026, 3:14 am

To be fair. It seems now a days we wake up and take another L, whether that be gas prices, food, ect ect.

My mindset at the minute is it's one big L and I'm learning to appreciate the Ws more even if there rare.

Loosing 5k in 3 days to gambling after being clean for 10 months.

Biggest L so far is being down 5 figures in crypto since the start of the year... very good time to stack BTC and major alts right now though. Saving up as much as possible and DCAing into BTC while low

Ouch. There is rehab for that homey.

pokejaye12 - July 1, 2026, 4:07 pm

I havent made up to \$1k this year, it's so sad :(.

I need help or some kind of update on how to change my situation.

Got to a point where one bad financial decision followed another. Lowest point was when I ended up owing some money and had no way of returning them. Managed to turn things around though. Got a full time 9-5 job in my field, rented a new place and things are looking a lot better. I'm thankful.
