Thread: [Can someone explain how Flipping here works?](#)

Mxstermind - July 3, 2026, 1:39 pm

So I am noticing Stanley daily flippers, users talking about bytes flipping but I dont get it yet. How can I get into this market and how to profit off it, thanks.

Flipping bytes is a game of heads or tails. You use your bytes to flip in public convo. I would suggest not trying to profit off of this because it is gambling.

I did not know about public convo until now, thanks. I had 25 bytes, now I have 0. I guess just thinking about profit when gambling is the first step towards losing. Next time, I would like to NOT PROFIT. Just send.

And Stanley is not too kind on paying out. You'll lose a lot more than win.

Sports book is my favorite gambling method here . Flipping is yucky!

You can also try slots gambling with your Bytes.
