Thread: [I have no access to forums](#)

Am I missing access to general chat forums? All of them seem gone. I used to be a member here roughly 15 years ago, back when I was young and made money on Filelce, ShareCash, etc. from tutorials posted here. I even used to sell shell booters back then, good times. I'm 29 now and can't seem to find my old account, but I'd love to see what this website still has to offer.

I found it. Not going to lie, I was being dumb: the tabs were right there. Thanks for the help.

From 15 years ago a lot of forum categories have been consolidated or even deleted.
