I'm mail spamming since many years.

Hit me up and tell me what you need and offer in return, then we can decide if we work together or not.

If you need spammers on Telegram, I can recommend some people. If you're talking about a script, there are also bots on Telegram — I can give those as well.

I offer professional mass messaging services across Telegram, WhatsApp, and SMS (with custom Sender ID support).

Instead of revenue splits, I work on a clear pay-per-message / volume pricing model. Fast delivery, high inbox rates, and reliable infrastructure.

Let me know your monthly volume or what platforms you want to target, and I will give you my rates. Hit me up in DMs

What are we spamming though, depends on what it is I might be able to help but if I don't get back to you that's my fault.
