Thread: [Movie Recommendation: Scarface \(1983\)](#)

Yes... I know I'm not recommending a movie that's in 2026, but please, If you haven't watched Scarface yet, do yourself a favor and add it to your list.

Tony Montana is one of the most iconic movie characters ever. The movie has everything.. action, power, betrayal, memorable quotes, and one of the best endings I've seen. Even though it came out in 1983, it still holds up really well today.

I'd easily give it a 10/10.

For those who've seen it:

° What's your favourite scene or quote?

°Do you think it deserves its legendary status, or is it overrated?

One of my favorite movies. One of the most quoted movies of the last 40+ years. I have been wanting to watch it again lately.

Yes sir! Completely agree with you. I've watched it maybe 10+ during my lifetime and I'm still not over it. I'll probably watch it tonight.

Scarface is a timeless classic! One of those movies never to be remade.

Scarface and the godfather are the best mafia movies ever.
