These are getting sold for \$5-\$15 individually, both on the forum and elsewhere, do your codes differ of them in any way?

Not meant as a salestrash in any way, I'm actually looking to buy various keys in bulk, I'm like genuinely wondering why your bulk pricing is the same as average individual sell prices. If this is the Jio promotion method, there's a chance the key will get revoked as soon as the monthly payments of the mobile subscription stop, and your warranty terms are basically the same as anywhere else.

Again, not meant as a salestrash. Genuinely just weighing my options as a big buyer of keys, I've been eyeing Gemini keys for a while.

Hey, I can give you \$5 if you are buying a good amount.

Again, how these are achieved is something I cannot state here but yeah you get the idea whenever theres a free promotion or something (people create bots and abuse the shit of it)

And yes, theres a chance they might get revoked thats why you are paying \$5-\$10 a piece and not the actual or 50% off price ;)

Oh and I only saw the threads now, they were \$10-\$20 listed most of the places I have seen

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
