Thread: [\[CLONER.CLUB\] Discord Server Cloning + Real-Time Message Backup · Restore Anywhere](#)

spiral - July 8, 2026, 2:53 am

CLONER.CLUB

Clone Any Server. Mirror Every Message. Live.

Clone any Discord server and mirror its messages in real time — share with friends or resell access.

THE PLAY

You're paying monthly for access to a private server — signals, leaks, a cook group, whatever it is. Your friends want in. Or you want to resell that access yourself.

Cloner clones the entire server and keeps it mirrored in real time, so one membership becomes your server. Everything posted in the source shows up in your copy the instant it's sent.

HOW IT WORKS

Drop In Your Token

Paste in your own Discord token in under a minute. No shared bot, no middleman, no technical setup.

Clone The Server

Point Cloner at any server you can see and copy the whole thing in one click — channels, categories and roles, structured exactly like the original.

Mirror In Real Time

Every message from the source lands in your copy instantly — edits and deletes included, with attachments, images, embeds and links intact.

Share Or Resell

Invite your friends into your mirror, or sell access to it. One paid membership, your own server, your rules.

WHAT YOU GET

One-click full server clone — channels, categories & roles

Real-time message mirroring — edits & deletes captured too

Mirror to a bot or any webhook URL

Faithful copies — attachments, images, embeds and links, not just plain text

Proxy support & auto-rotation to stay online

Server history & member export straight to CSV

Live health monitoring, analytics and full searchable message logs

Instant Discord alerts the second anything goes wrong

Two-factor login & license keys to hand out or sell access on your terms

PLANS — MONTHLY, OR ONE-TIME LIFETIME. NO AUTO-RENEW.

Starter — clone & mirror 1 server£4.99/mo · or £24.99 lifetime

1 server, up to 5 channels

Real-time mirroring, edits & deletes captured

Stats dashboard · 2FA · custom message styling

Pro — for multiple servers (most popular)£9.99/mo · or £49.99 lifetime

Up to 5 servers, 10 channels each

Everything in Starter, plus: webhook output · full server history export · priority support

Unlimited — for resellers & large operations£19.99/mo · or £99.99 lifetime

Unlimited servers & channels — no caps

Everything in Pro, plus: keep every message forever · export your full archive anytime · first in line for support

Most customers choose Lifetime — one payment, never pay again.

WANT TO SELL CLONER AS YOUR OWN?

The Reseller plan lets you brand Cloner as your own product — your domain, your logo, your pricing. Ready-made dashboard, full control over your customers, built-in alerts and webhooks, and you keep 100% of the profit. Live in minutes, no coding.

DM to get it set up.

That's actually a really solid idea. Good luck with the sales man!

nothingmate - July 8, 2026, 5:40 am

Looks really interesting. Will look into it for sure

OtterLover - July 10, 2026, 1:24 pm

I've become a little interested.

Stanley - July 12, 2026, 4:00 am

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first

post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

Can I also do illegal copying by any chance? I want to bring over a designed layout from another server. Is it possible to bring that over as is? With regular user permissions.

Yes you can copy layout, messages all with just a user in server don't need any permissions

Are you saying that I can also clone someone else's server, not just my own server?

You can't add a bot to someone else's server. You have to work with an individual user's token. Can you copy that and paste the exact same design into my own server?

A bot doesn't need to be in the server that you're "cloning"

Just the user that is in the server is enough.

Input your user token and you'll be able to copy the entire server you're wanting to copy.

Here's an example video.

bebonzy09 - July 28, 2026, 9:05 pm

Awesome service! I have not seen anyone offer this anywhere, might have a use for this.

Best of luck with sales, i'm sure this will do well

7 - July 28, 2026, 9:10 pm

This looks really interesting. I bet you could do the same with telegram channels

spiral - July 29, 2026, 3:13 am

That is in the works. Clone telegram messages will eventually be added as well as sending to

telegram.

So can clone a discord server into tele and vice versa if needed.

bebonzy09 - July 31, 2026, 1:32 pm

Wait so this also fetches all members in the discord server you are cloning and exports to a file?

Unsure if I read the thread wrong, but I've been looking for something like this for a long time

That is a beta feature I'm currently testing now.

I can give you access if you'd like

goldfinger - August 10, 2026, 2:26 pm

Can u clone websites and also can u spoof a telegram as well

Scrub - September 19, 2026, 9:37 am

Over 200 users now registered on site. Hoping to see some more sign up
