A LIVE FACEBOOK ANGLE MOST PEOPLE ARE MISSING

Most people think Facebook monetization means recording Reels every day, becoming an influencer or putting their face all over the internet.

I found a different angle - and I am actively using it on my own monetized Facebook account right now.

This is not another recycled "post consistently and use hashtags" course. You will not uncover this exact playbook from a quick Google search, and AI would never suggest it to you in the way I show you because this came from live execution, real testing and what is working for me now.

Here is what that testing produced on my account:

559,856 views in only seven days

151,422 engagements

\$108.69 in approximate earnings

One result showing 1.9K reactions, 107 comments and 36 shares

Another result showing 853 comments

These are my screenshots, my account and my current results - not borrowed proof from somebody else's sales page.

For less than the cost of lunch, you get the exact playbook, examples, templates and implementation plan I wish somebody had handed me before I started testing this myself.

These are past results from my account, not promises of what every buyer will earn.

NOT MONETIZED YET? START HERE.

The guide also shows you how to submit your interest for Facebook Content Monetization.

After submitting your interest, applying the guide may help you establish more consistent original activity and account growth. Facebook alone decides which accounts receive access.

This is not an approval guarantee. We do not approve accounts, control invitations or have a private connection to Facebook. Only Facebook decides whether an account becomes eligible or gets approved.

REAL EXAMPLES FROM MY DASHBOARD

Seven-day dashboard for July 7-13: 559,856 views, 151,422 engagements and \$108.69 approximate earnings.

Monetization dashboard: \$107.41 approximate earnings for July 1-13, including \$25.86 shown for that day.

Redacted post example: 1.9K reactions, 107 comments and 36 shares. The post and group are intentionally hidden.

WHAT I SHOW YOU

How to submit your interest for Facebook Content Monetization

The complete private faceless growth and monetization method

How to apply the system without appearing on video

Templates, prompts, checklists and tracking tools

A step-by-step implementation plan and improvement process

This is not a promise that every post will go viral or that Facebook will approve every account. It is the practical system I am using to create steady growth and improve my own monetized profile without needing to be on camera.

WHAT IS THE DAY 1 COMMUNITY?

Day 1 is my ongoing Skool learning community. It is more than access to this Facebook PDF. Additional courses covering AI and online monetization

A community where members can ask questions, share progress and get support

Live co-working sessions where we work and build together

Day 1 is normally offered as a recurring monthly membership. For this HackForums-only special, the \$24.99 Premium package gives you this Facebook course plus lifetime Day 1 access for one payment.

QUICK FAQ

Can this help me get monetized?

Possibly. We show you how to submit your interest and build the kind of consistent original activity this workflow is designed to create. Approval is completely controlled by Facebook and is never guaranteed.

Do I need to record videos or show my face?

No. This system is designed around content and distribution methods that do not require you to appear on camera.

Do group posts guarantee earnings?

No. Facebook controls eligibility, qualified performance and payouts. The guide teaches the private method I am currently using, but results will vary.

Will you publicly reveal the exact groups and posts?

No. The public thread only shows redacted proof. The method, targets and examples stay inside the paid guide.

COURSE - \$14.99 | COURSE + LIFETIME DAY 1 COMMUNITY - \$24.99

Premium includes more courses, community support and live co-working sessions. Pay once through this HackForums special.

Yes, it will explain how to identify which content to create, along with the method for creating it. The method is for people who want to make money without videos, though it can definitely be paired with them. No Ai tools are included. ChatGPT Plus membership is highly recommended, but not necessary.

Facebook just dropped a new update that helps this!

LOUDERMILK - July 17, 2026, 12:56 am

i believe this is limited to certain countries.. correct?

Great question, thanks for pointing this out! Eligible markets include the United States, Puerto Rico, Canada, the UK, Australia, most of Western Europe, and select nations across Latin America, Asia, and Africa.

If you have a specific location you are curious about, I can help you confirm its availability.

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

I may be interested.

Can I ask:

1. What should budget be to start making money with this method?
2. Are monetary results tied to how much we invest into the method (scalable)?

1. It can be done with no budget

2. You can invest in purchasing monetized pages and creating content creation systems

So yes and no. Inherintley, you don't need money to create content. But with investment you could create better system for content creation.
