I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

@Vaultbyte is there any garranty ?

i want to crypt a server.exe built by Violet RAT , and i want it to get a good encryption especially with Microsoft Defender .

is that possible to decrypt the .exe and give me two output .exe and .bat .

i'm looking for honesty

THANKS
