Thread: [Unlocked The Rarest Camo in BO7](#)

oRequiem - July 16, 2026, 1:17 pm

I finally Unlocked the Rarest Camo in Black Ops 7. What I had to do is Max prestige every gun (Prestige 2) and get them all to Level 250 (50 Weapons).
This took a VERY LONG TIME to do, but it's finally over.

The camo is extremely underwhelming considering what I had to do to unlock it. But we did it.

Congrats!!! Been out of the CoD scene for several years but I remember the brutality of camo grinding. Must feel great to finally have it done.

Ready to do it again in MW4? Haha. Enjoy the camo brother

Yeah, we'll see what MW4 has. I honestly have 0 hopes for new cods, cods have been just so bad after BO4.

Indeed, if MW19 maps weren't shit and they didn't get rid of the prestige system for those stupid ass ribbons, I would have loved that one like the others. But after that one it's been crap.

Got Cold War for the zombies, it was garbage. Infected with warzone mechanics.

I quit MW2 after the first season, didn't bother with MW3.

Gave BO6 zombies a chance, still full of warzone BS and I hated the multiplayer. Didn't even bother with BO7 but I heard the zombies was much improved. Still don't like the modern direction it took.

BO4 was the last CoD I truly enjoyed.

I went on a rant apologies lmao

All good. I fully understand.

MW2019 = IW pitched the newer dogshit SBMM system to Activision saying that it will be better for cod.

MWII = Horrendous game and gunplay.

MWIII = A better MWII, but still quite ass. Better than these recent cods though.

Vanguard = Just complete hot garbage that is forgotten and should be (They even made the mastery camo bugged for like 4 months before being obtainable).

Cold War = Was okay, but never nerfed broken weapons.

BO6 = One of the worst pieces of shit I've ever witnessed.

BO7 = A better BO6, but that's it. Zombies is better, but I find zombies boring. Endgame is a fun mode, for a little. I'm more of a pubstomper.

Completely forgot about MW19 introducing SBMM, that was also when lobbies started disbanding after a game correct?

Vanguard I didn't really play it. Played a little bit on a free weekend for the shino numa remake, only part of the game that was any good.

I love zombies but if someone doesn't then BO6/7 was a complete shitshow. Don't get me started on that advanced movement shit they introduced in BO6.

I don't mind omni movement since it does add an actual skill gap. But MW2019 was also when IW attempted to introduce no mini-map in all modes throughout the entirety of the game until it backfired hard lol.

Omni movement just isn't for me but if people like it that's great. Holy crap I forgot about the no minimal too man they fumbled that game hard
