Thread: [Python Attachments](#)

Omniscient - July 18, 2026, 2:28 pm

Upgraded members should now be able to upload Python (.py) attachments to HF.

This should help share more code directly on the site using attachments for Bytes.

Thank you.

flyingduck - July 18, 2026, 2:29 pm

py for bytes? like attachments?

Omniscient - July 18, 2026, 2:31 pm

Yes, so you could create .py files and upload them to HF.

Technically was possible anyways with .txt but this saves a step with renaming the file.

A nice addition. I hope members contribute useful content instead of just chasing Bytes.

Hell yeah! If we could get to a point where we can upload .zip files (password protected) the attachment feature would be complete imo!

I don't think we'll have zip attachments. Way too much potential for abuse.

Eran - July 24, 2026, 6:49 am

Nice addition, looking forward to seeing how much is this being utilized. Surely people have .py attachments they would like to share for bytes.
