Thread: [AI Companion Site | Affiliate Program \(60% Lifetime Revshare\)](#)

Fudster - July 18, 2026, 8:20 pm

AI Companion Site | Affiliate Program (60% Lifetime Revshare)

Running an established AI companion / AI girlfriend site and looking for affiliates to send traffic. I would link it here but I'm not sure if I should link NSFW sites directly, so PM me for the link and the full details.

The short version: it converts well with adult, dating, and general gooner-type traffic, and you get 60% of everything they spend, for as long as they keep spending.

What the site doesReal-time chat with AI companions, long-term memory, multiple models

AI image generation

AI video generation (text-to-video and image-to-video)

Live voice calls, real-time

Animated VTuber characters

Users can build, publish, and share their own characters

What users pay

Subscription runs \$19.99/mo, or \$12.99/mo on the 4-month plan, or \$9.99/mo on the yearly. On top of that there are coin packs from \$4.99 up to \$199.99. Your cut applies to all of it, subs and packs.

The affiliate side60% commission, lifetime revshare. You keep earning on renewals and repeat buys, not just the first sale.

30-day attribution, with IP and fingerprint fallback so it holds up when cookies get cleared.

Payouts in USDC on Solana, monthly.

Dashboard with live stats, custom links, promo codes, short links, and UTM tracking.

No traffic of your own?

There's a sub-affiliate program too. Bring in other affiliates and earn 10% of what they make, on top of anything you earn directly. It's capped at two tiers, so it's a straight cut for recruiting producers, not a chain.

Partnerships

Affiliates are the main thing I'm after, but if you've got a bigger partnership idea, hit me up and we'll

talk it through and figure out what works for both of us.

I'm also open to feedback in general, not just on the affiliate program but the site itself, the funnels, the features, whatever. It's all live but none of it is set in stone.

PM me if you want the link and the details.
