Thread: [Anonymous Phone Numbers - real carrier eSIM, calls + texts + data - from €7.70](#)

NordSecure - July 19, 2026, 10:51 am

NordSecure - Anonymous Phone Numbers

A real carrier number with calls, texts and data. Delivered instantly as an eSIM.

??

WHAT YOU GET

A genuine mobile number issued by a carrier network, not a VoIP line. Calls, texts and data all run on the same eSIM profile.

No name, no address, no ID. There is no sign-up and no email required.

No account. Checkout gives you an Order ID and a PIN. That is the entire relationship.

Second line on the same handset. It installs beside your existing SIM. Your normal number keeps working and you choose which line makes each call.

Texts included. Bank codes, service codes, ordinary messages. Things a data-only eSIM cannot do.

Real carrier, real number. Vodafone, Orange, Vinaphone, Unitel, Dhiraagu and others depending on destination.

??

DESTINATIONS AND PRICING

USA - from €7.70

Real US +1 number. 6 plans from 7 to 365 days. Up to 200 minutes and 200 SMS. Network: Change+. USA only, does not roam.

Top-up keeps the same number running indefinitely. Refundable while still uninstalled.

Vietnam - from €16.55

Vinaphone number. 1,000 minutes of calling. Daily data allowance, 25 GB to 50 GB. 3 plans, 5 to 10 days.

No SMS allowance on these plans - they cannot receive verification codes. Pick another destination if that is what you need.

Mongolia - from €22.25

Unitel number. Unlimited nationwide calls and SMS. 15 GB to 50 GB. 3 plans, 10 to 30 days. Receives verification codes.

Global - from €25.65

One number that works across 168 countries and territories. 6 plans from 7 to 365 days. T-Mobile, US Cellular, Verizon and Bouygues Telecom.

Top-up keeps the same number running indefinitely. Refundable while still uninstalled.

Europe - from €30.20

Real French +33 number on Orange and partner networks. Unlimited calls across 36 countries. 20 GB to 500 GB. 5 plans, 30 to 90 days.

Australia - from €36.95
Vodafone number. Unlimited talk and text. 80 GB. Single 28 day plan. Receives verification codes.

Maldives - from €96.60
Dhiraagu number. 20 GB, 150 minutes, 150 SMS. Single 10 day plan. Intended for a stay rather than a number you keep.

??

HOW IT WORKS

Pick a destination and a plan on the site.
Pay by card or crypto. BTC, XMR, LTC, ETH, USDT accepted.
Your QR code appears on the receipt the moment payment clears. Nothing is posted and there is nothing to wait for.
Scan the QR. The profile installs alongside your existing SIM.
The network assigns your number on first connection and it appears in your phone settings within a few minutes.

Plan validity starts when the eSIM first connects to a network, not when you buy, so you can buy ahead of a trip.

??

READ THIS BEFORE YOU BUY

Quote:I would rather you know these up front than open a dispute later.

1. The number is not known at checkout. The network assigns it when the eSIM first connects, so neither you nor I know it in advance. You cannot request a specific number or area code, and an activated plan cannot be swapped for a different number.
2. Only USA and Global can be topped up. Those two keep the same number running as long as you extend them. Every other destination ends when the term ends, and a new plan issues a new number. Check this before you attach a number to anything you care about.
3. Your phone must support eSIM and must not be carrier-locked. Broadly that means iPhone XS or newer, and most Android flagships from around 2019. A locked handset will refuse the profile even if the hardware supports it. Check Settings for "Add eSIM" or "Add cellular plan" before ordering.
4. App acceptance is likely, not guaranteed. These are genuine mobile numbers so they pass the checks most services run, including WhatsApp, Signal and Telegram. Some services keep their own block lists. If one specific app is the entire reason you are buying, treat it as likely rather than certain.
5. Refunds vary by destination. USA and Global are refundable while the eSIM is still uninstalled. The rest are non-refundable once issued. No plan can be returned after the profile has been installed, because the network counts it as used at that point. Every plan page states which it is before you pay.

??

PAYMENT AND SUPPORT

Payment: Card, or BTC / XMR / LTC / ETH / USDT
Delivery: Instant. QR code on the receipt as soon as payment clears.

Support: support@nordsecure.eu - quote your Order ID

Hello. no this service is still up, got warnings when posting links so i stopped posting direct links to my Website but you can find it on

OtterLover - August 6, 2026, 8:11 pm
Where can I find the link?

vyactor - August 15, 2026, 3:00 am
Goodluck with sales OP.

gale_ds - September 11, 2026, 7:51 am
where is the post exactly? [warn]

Stanley - September 13, 2026, 6:37 am
I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
