Thread: [Selling Rare Handle "paydesk" Full Access & Instant Email Transfer. \\$1500](#)

TiktokRareSeller - July 21, 2026, 9:59 pm

Asking price: \$1500

Will accept \$1200 flat in USDT/LTC if we open an official contract and close the deal by 7/24/2026

I accept:

USDT (TRC-20)

LTC (Litecoin)

or BTC (Bitcoin)

I do not:

Accept PayPal, Venmo, Cash App, bank transfer, or anything outside of what I DO accept.

Middleman & Safety Policy: Official HackForums Contracts Only:

No deals will be done over text chat alone. A formal HF Contract must be opened and accepted before any info changes hands.

Approved MM Only: I am 100% using a Middleman, but strictly an official, highly-vouched, sticky-threaded HackForums MM (or official HF staff).

No Off-Site Jumps: Do not ask to move this to Discord or Telegram for "safety." If you send a Discord link to a "middleman server," the deal is immediately canceled and you will be reported for scamming. All communication stays natively in HackForums PMs.
