Thread: [Stealthy Crypto Drainer | \\$1,600,000+ Profits \(PROVED\) | TRX/BNB/ETH | 530+ Wallets](#)

hiskill - July 25, 2026, 1:47 pm

? StableX – Multi-Chain Drain Stand ?

Free Demo – pages, drain, Telegram bots and admin panel before you pay.

Pages + backend + collect worker + operator bot + staff bot + mini app.
BNB, Ethereum, Tron. 530+ wallets. 4 landings.

Copied from live teams: 1,600,000+ USDT on Tron (proofs on request).
Same class of stand does not get dumped at \$500 on this market.

Key Features

? 3 templates – StableX invoice · Coinbase checkout · Trust Card (debit card tiers, desktop fan / mobile single card).

? 14 languages – auto from IP geo, manual override saved.

? 530+ wallets – WalletConnect QR on desktop, wallet list on mobile.
One session = all networks on the link.

? QR from the bot – plain WalletConnect QR or Trust Wallet Receive screenshot.
Network, address, status-bar time and battery on the fake screen.

? BNB / ETH / Tron – collect from allowance, not a fake “300 chain” list.

? Two Tron approve modes – increase (quieter) or regular approve, per link and on QR.

? Tron activation – optional TRX top-up for inactive accounts before approve.

? Tron auto energy – optional energy rent per link; stand-wide on/off in admin.

? Domain pool – rotating HTTPS origins. Visitor never types the host.

? Spoof + verified checkmark – wallet shows catalog host/name, not your page origin.

? Collect modes – on approve / balance threshold / manual from mini app.

? Ban – no new links, live pages die, re-apply blocked.

Telegram & Admin

? Two bots – operators run links; staff handle access, config, stats.

? Unlimited links.

- ? Admin panel – domains, templates, spoof, networks, Tron toggles. Applies without restart.
- ? 14 languages on landings (IP geo). Bot EN/RU before apply; /lang anytime, saved.
- ? Roles – Operator, Moderator, Curator, Admin. Staff assigns in the bot.
- ? Newcomer factory – settings copied on accept. Template change does not rewrite live links.
- ? Mini app – own allowances, balances, manual collect. Staff read-only in staff bot.
- ? Alerts – visit / connect / profit / top-up per link. Counters always; chat if enabled.

Why This Stands Out

- ? Volume – 1,600,000+ USDT Tron, proofs on request.
- ? Stealth – rotation, verified-domain spoof, quieter Tron approve.
- ? Price – stands like this are not typical at \$600 here.
- ? Install – Docker deploy guide + help until pages, bots and collect run.
- ? Keys – no owner addresses or collect keys in Telegram chat.

What's Included

- ? Full source – pages, API, bots, mini app, collect worker
- ? Deploy guide – server, Docker Compose, domain, SSL, first boot
- ? Personal install help until it actually runs
- ? Demo before buy
- ? Extra customization (paid)
- ? Escrow available
- ? Escrow available — your safety is guaranteed

? Honest Note

“Zero warnings, undetectable bypass” is a sales line. No bypass is invisible.
Extra obfuscation often makes wallets louder.
This stand cuts noise with rotation, spoof, and Tron approve choice — not tricks.

Price: \$500 — one-time, full stand, yours.

No monthly fee. No cut of your volume.

Demo: DM.

? NEW UPDATE: EXCHANGE TEMPLATE ADDED! ?

Just launched the most convincing phishing template yet—a professional exchange login page that's nearly identical to real exchange interfaces!

? Exchange-style template – Mimics major exchange login flows

? Works with 500+ wallets – Including all major EVM and Bitcoin wallets

? Mobile-ready – Perfect for phishing on mobile devices

Now with 300+ EVM networks + SOL/BTC/TRC + exchange template—this drainer just got even more realistic. ?

Test the demo now and see why this is the most trusted solution available.

Red teaming WalletConnect? Seeking authorized pentest partners: social-engineering testers and C/Go/Python devs. Scope: QR desktop flows, mobile wallet lists, multi-chain sessions. No upfront pay; fair revenue share. PM if authorized.

hiskill - October 12, 2026, 6:32 am

Updates

? Trust Card — landing that looks like crypto debit-card issuing. Card tiers, desktop fan, one card + buttons on phone.

? 14 languages — UI language from the visitor IP region, with a manual switch that stays saved.

? QR from the bot — plain WalletConnect QR, or a Trust Wallet Receive screenshot (network, address, clock, battery).

? Tron activation — optional one-time TRX top-up for inactive accounts before approve.

? Tron auto energy — optional energy rent on the link, with a stand-wide on/off in admin.

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.
