Thread: [exSIMus - Travel eSIM - 190+ Countries Worldwide - 240+ Operators | Soon: Mobile App](#)

N604 - July 26, 2026, 7:11 am

Short ToS summary — exSIMus (data-only eSIM)

Data only. No calls, no SMS, no usable phone number, no emergency calls. Keep another means of contacting emergency services.

Check your device first. Must support eSIM and be carrier-unlocked. Installing on a locked/incompatible phone = generally no refund. Refunds are possible while the profile is still uninstalled.

Deleting a profile is permanent — it usually can't be reinstalled, and lost allowance isn't replaced.

Validity starts on first connection to a network in a covered country (unless the plan says otherwise), runs continuously, and doesn't pause. Unused data expires with no refund.

"Unlimited" plans have fair-use limits — speeds can be throttled or deprioritised past them.

Network-measured usage is what counts, not your phone's counter.

Coverage is best-effort. They resell capacity from partner networks; no guaranteed speed, uptime or coverage at any specific place.

Wallet balance is store credit only — no cash value, non-transferable, promo credit can expire or be revoked.

Prohibited: reselling, permanent roaming, SIM boxes/gateways, bypassing limits, unlawful use.

Breach = suspension with no refund.

Liability capped at what you paid for the plan or USD 50, whichever is higher. Governed by Israeli law; claims within 12 months.

Must be 18+; one account per person.

Thank you, much appreciated, and a great question, the eSIM are only for data use (network), it can receive SMS but you cannot send an SMS on behalf of the eSIM number.

I went through the website. Prices are all over the place, kind of nonsensical . I'll give some examples below.

10 GB Europe (31 areas) 10GB 31Days \$8.38 VS 3 GB Europe(30+ areas) 3GB/Day \$8.80 ???
(more GB, more time = less money??)

1 GB Global (120+ areas) 1GB/Day \$8.90/ day VS Global (120+ areas) 1GB 7Days \$9.20

10 GB Europe (35 areas) 10GB 30Days \$11.34 VS 10 GB Europe (35 areas) 10GB/Day \$10.94/
day

31 days: 8.38 = total of 10 GB. 3 GB a DAY = 3 GB each day, 8.80\$ a day

Same for all your examples.

Note: you have filters; Day Pass means the data resets every day.

You need to use filters to choose between Fixed data vs Day pass, otherwise you will see both. IF you have any suggestions, feel free to comment :)

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
