Thread: [Why god give us 10 fingers](#)

geoshot - July 26, 2026, 2:57 pm

All we really need is 3:

Finger 1: Set a goal

Finger 2: Make a plan

Finger 3: Get off your ass and grind

Pure facts

Sylen - July 26, 2026, 5:51 pm

Why do you need any fingers for that

nenadv - July 26, 2026, 11:52 pm

so we can count \$ easier after grinding [warn]

That explains three of them. I guess the other seven are for counting all the times we ignored the plan and had to start over. ?

Deany - September 2, 2026, 10:15 pm

3 lol , that is funny. OP confirmed to be an alien

Terry A. Davis - September 2, 2026, 11:02 pm

It's hard to a fist with three fingers.

Rahul007rhp - September 2, 2026, 11:04 pm

10 is better than 3 i suppose

Because God prefers the decimal system, which has a base of 10. ??

If God had preferred octal, we would have only eight fingers.

And if God had favored binary, we would be walking around with just two fingers per hand.

That's a fact!

That's a new one. Thank you for sharing.

How exactly do you count cash with 3 fingers?

Sift - September 3, 2026, 10:35 am

Finger 2 and 3 are actually for the women.

CyberXero - September 3, 2026, 12:26 pm

I actually thought we had two thumbs and 8 fingers

This made my giggle.

I knew a girl with 7 fingers. Why did God only give her 7 and the OP 3??

Haha sorry I misread your post and had to edit out my comment. I thought she had six fingers per hand, but my math didn't math and I visualized 7 fingers per hand for some reason. Good tickler she would have been. ?

Yeah she had 5 fingers on one hand and 2 on the other. It was insane! She was a bitch though. Like fr a bitch. Her sister was a bitch too. Like you can't both have less fingers than 10 and also be a bitch.

That is not the definition of a fact. That's an odd thing to call a fact.

God also gave us a sense of humor, so we can enjoy a high quality joke like the one I posted. ?

At least most people... ?

I was just joking around as well. I actually liked your funny post.

For not much reason my brain also immediately jumped to Apu's wife on The Simpsons having 8 babies and all The Simpson human characters only have 8 fingers. But God on The Simpsons has ten fingers.

This is The Lounge. It's all good.
