[loadman](#)

this man hasn't been online since he lost all his bytes. My personal theory is that he is having terrible byte gambling withdrawals.

Mr.Cat - July 27, 2026, 3:28 am

how many bytes did he lose. Maybe he got cured of the flip curse after he lost everything xD

hes been bouncing between 200k-600k if i remember correctly
but it was more about how manic he was about the bytes ?

Nerdz - July 27, 2026, 4:44 am

He sounds like he is sad like me.

Like I wish I just never existed. not gone, but just never existed so that no one feels bad.
