Note:

I have limited amount of email addresses(identities) with history that I can provide a customer with. Terms of Service (TOS)Scope of Service: This service provides a one-time manual digital footprint sweep, public record opt-out execution, search engine takedown requests, social media privacy auditing, residential data minimization, and decoy profile creation. This is a one-time project and does not include ongoing monitoring or maintenance.

Information Handling & Confidentiality: To execute these services effectively, you must entrust me with your personal information (such as legal names, aliases, contact details, and history). I pledge to handle this data with strict confidentiality, using it solely to perform your requested removal tasks. Once the service is completed and delivered, I will permanently delete all traces of your personal data from my systems to ensure your privacy.

Third-Party & Public Record Limitations: I act as an intermediary to submit opt-out and takedown requests. Because third-party data brokers, government databases, and search engine algorithms operate independently, I cannot guarantee permanent, 100% erasure from the internet, nor can I control future re-scraping of public records.

No Legal or Security Guarantees: Decoy footprint creation and data removal services are provided for personal privacy and educational purposes only and do not constitute formal legal, financial, or professional security advice.

Finality of Sale & Strict No-Refund Policy: All fees are for completed manual labor, research, and the delivery of the final anonymity report. Due to the irreversible nature of digital work and manual labor performed, all sales are final and strictly non-refundable once the service has commenced or been fulfilled.

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
