Might be relevant to this, but Moby already does a lot of this and even tracks major KOL's. How is your service any different?

XtremeDiscount - July 27, 2026, 6:26 pm

Hey my friend! Seems interesting. May purchase. Good luck with sales

Mastercarder - July 27, 2026, 6:59 pm

You guarantee \$500 a day?

How much time do I need to invest?

Life time support?

NLSwiper - July 27, 2026, 11:45 pm

What kind of initial bankroll do we need to have?

Life time support?No I do not guarantee anything, it's crypto meme coins. It depends on your strategy, I can only teach you how to catch the fish.

Any amount, I personally only do 0.5 SOL up to 1 SOL while trenching considering they're low marketcaps.

And yes lifetime support.

Can you PM me when you have time.

The description seems fairly technical. Can you explain a bit about what it exactly is & how it works in a bit simpler terms?

Sure.

It's a teaching product to catch early plays in pump fun / solana without ending up as exit liq or top blasting. Using couple tools to get the advantage of being extremely early.

So basically you will show strategy to catch the pumpnDump coins early so we invest in them & cashout at profit? Please check your convo.

Crystallize - July 29, 2026, 8:32 am

Can offer a VC copy to a highly credible user in exchange for a detailed review.

are you using this method currently? What is your success rate? Lets say out of 10 partifications, do you suuccess in all 10?

Second, do we get to catch such runs on daily basis?

I'm not sure if I'm "highly" credible (Only have a 100+ deals on the site) but I do have the liquid funds to easily attempt this method and leave a detailed review if you're willing to give me a shot. If I make the money using your method I will gladly pay the first 30\$ in profit so you won't lose anything.

If that copy has already been given to someone I will wait for the review. My impression is that these new tokens are highly volatile so we're just hoping to grab the winners ASAP?

Would also like to know the answer to this as I'm very interested in purchasing.
How much money do we have to invest to start ? And are this daily payouts or ?

Sakhill - August 4, 2026, 11:22 am

Purchased this yesterday and read ebook today, in fairness it is worth 30\$, are there secret information in ebook, definitely not but you get bunch of wallets to track and you have info how to start with memecoins if you are interested.

Over next couple of days I might give it a try as I never tried few things mentioned in ebook.
Now if you are trading with memecoins for a long time and you are into this, most likely you are aware of everything what is mentioned in ebook, but if you are like me, someone who jumped into memecoins few times for fun this might be for you.

Considering the information in ebook and price this one have my vouch.

If I ever tried method I will update how it went.

You can invest as much as you want you can start with 20 bucks 50 bucks 100 whatever you feel comfortable to try it out. The payments are always in your wallet, it depends on your pnl same as selling btc or buying.

Goodluck with sales

Stanley - August 5, 2026, 5:59 pm

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
