Just finished the campaign solo on heroic after 8.5 hours. I have no interest in skins though. Im more interesting in finding that piano song at the very end of the credits.....

Absolute beast man. Awesome job on completing it already. I haven't started yet. I didn't know it was out until I started seeing skin codes then I checked gamepass.

I did not know about a few of these thank you! Started the game yesterday been enjoying it a lot with a couple of my buds. Doing legendary and collecting all the skulls and terminals. Finished 3 missions so far

Edit: unfortunately the discord quest is not appearing for me. Seeing a lot of people have the same problem

Another Edit: Joined the halo discord server and found the quest in announcements. Now it's saying I'm not eligible if I select it. Gonna hope they fix this for everyone

Thanks for the share. I haven't picked this up yet, but I'm a sucker for the Halo campaigns and even if I've already played them god knows how many times in the past lol. The few new missions this

one has is a cool touch to look forward to as well. I'll 100% be picking this up at some point this year and playing through, probably getting most if not all achievements as well.

I got all the ones you listed the first week launch of the game. Do we know if they ever released any newer ones as I had not been keeping up on things. If so, I would want to at least try to stay up to

date and collect them.
