Thread: [\[FREE VOUCH COPIES\] 1,300+ Premium Shopify Fitness Leads\(Need 3 Trusted Reviews\)](#)

erPh - July 29, 2026, 12:17 pm

? 1,300+ PREMIUM SHOPIFY FITNESS LEADS ?

Fresh, Verified, and Hand-Cleaned B2B Data for Agencies & Marketers

Hey HF,

I am erPh. I recently built a custom headless-browser architecture to dig deep into active Shopify stores and extract the actual contact emails hidden within their subpages.

I am new to the marketplace, and I know that TRUST is everything here. Before I open my official sales thread and put a price tag on this, I want to prove the quality of my data.

I AM GIVING AWAY 3 FREE VOUCH COPIES

What exactly is in this database? 1,300+ Verified Active Shopify URLs (Strictly in the Fitness / Gym / Workout Niche)

100% Valid Direct Contact & Support Emails (No empty rows, no fake catch-alls)

Social Media Links (Instagram/Facebook where available)

Format: Clean CSV/Excel file, ready to be plugged into your cold email software.

? RULES TO CLAIM A VOUCH COPY:

1. You must be a highly repped and upgraded member (Ub3r, L33t, or Staff).
2. You must be willing to inspect the data and leave a detailed, honest review on this thread within 24 hours.

Drop a comment below saying "I want a vouch copy" or PM me directly!

Once 3 trusted reviews are posted, I will close the free copies and start the official sale.

Can I get a vouch copy?

erPh - July 30, 2026, 2:52 am

Still have 2 vouch copies available! Waiting for the first review to drop so we can start the official sales.

Ash Ketchum - July 30, 2026, 8:50 pm

Got a vouch copy from the seller and went through a decent amount of it before leaving this review.

Honestly it was pretty much exactly what was advertised. I checked a bunch of the stores and they were all live Shopify sites, and the emails I looked at matched up. Didn't come across any duplicates or junk rows (or broken links/typos) which is usually what I expect when people sell lead lists. Since he specifically mentioned there weren't any, I made sure to check pretty thoroughly and couldn't really find anything to complain about. I also didn't find any DEAD leads during my research but keep in mind i'm one person i didn't check them all.

The niche was on point too. Most of what I checked was actually fitness brands, gym apparel, supplements, workout gear etc. It didn't look like a random list thrown together just to hit a certain number of leads. Everything I opened was relevant to what was being advertised.

The social links are a nice extra as well if you want to reach out on Insta or Facebook instead of just email. Nice to have everything in one place instead of having to spend more time finding it yourself,

If you've ever tried building a list like this yourself you'll know how long it takes, especially if you're checking websites one by one. This definitely saves a lot of time. Obviously your results still depend on your outreach and what you're offering, but the data itself looked solid and that's really the important part.

Overall no issues from me. Seller delivered what was promised and the quality matched the sales post Happy to vouch for it.

Op also was happy to give me extra time to make sure my review was thorough i think that confidence speaks volumes itself GLWS.

Appreciate the deep dive and the detailed review, brother!

This is exactly why I build custom architectures instead of selling recycled, burned-out lists. When you scrape fresh and filter out the junk at the code level, the results speak for themselves.

Thanks again for taking the time to verify the quality.

For everyone else: The database is live. If you want to stop wasting time manually checking dead leads and start closing deals in the fitness niche, grab your copy now. PM me if you need any custom extraction!

erPh - *August 2, 2026, 11:20 am*

Thanks for all the PMs asking about different niches!

Just to clarify officially on the thread: YES, I am currently taking orders for custom scraping. If you don't need fitness leads but want me to run my architecture for Real Estate, SaaS, Local Dentists, or any other specific target, just send me a PM with your criteria.

The fitness database is still available for instant delivery. Let's get to work!
