Hi , i started an ai model that looks ultra realistic & her social media accounts are doing well , i have a lot of DMs and requests in instagram/snapchat so if anyone has a e-whoring method to sell or a partner that we can work together so we bank from her.

Why don't you just use your AI model on Fanvue? They allow AI models as long as it's disclosed somewhere in the profile, you can cleverly hide it in between some text, not like the old horndogs will notice anyways. Drive traffic from your socials.

How many Instagram requests do you get a day from that? It may be a good way to build up my account lol

If you can tell how you created ultra realistic model then i'll tell you how to deal with everything, and yes none of my methods are discussed here or any other forum.

I run 5 AI models and did 45k with one last year from July to December. Can share stats. If you need help moving or setting up. Drop me a DM on my TG @ azz3r and we can work something out thats profitable for us both.
