I don't think there would be any issues, an admin needs to check or verify if there is anything in the TOS about this

Should be perfectly fine

Why wouldn't you be able to sell digital goods here? Maybe I'm not getting something.

I don't see why not, but I doubt there would be a market here for wedding planners and the like imho

Everyone is selling digital products here on HF but not cards , planners , so thatswhy I doubt about it. If you allow or can create the category of it ?

Reason: There is no category of it.

There should be separate category for it else everything will be mixed up.

Just make a single thread and have subcategories in the thread, whichever one someone wants they can PM you.
