Google must be practically giving AI subscriptions away.

dead.man.alive111 kindly provided me with a vouch copy.

All I had to do was click on the link he provided me and my gemini account has been upgraded to pro. Really quick and easy.

Thanks heaps bro. \$3.00 is a great deal and the cheapest I've seen for this. I would have happily have paid for it haha. Would recommend to buy while you still can. Honestly this is a great deal for an ai subscription.

GLWS bro.
