Thread: [Bulk SMS](#)

Vincent62666 - August 3, 2026, 4:56 am

Can anyone suggest a reliable SMS marketing service in the U.S. that manages opt-in messaging and ensures compliance? Additionally, what are the most effective methods for creating a permission-based contact list?

Personally I have a lot of experience with Telnyx. Very good throughput and the prices aren't too bad. Be prepared to go through the whole TCR 10DLC registration process, though.
