Thread: [What does script kiddie means?](#)

geoshot - August 4, 2026, 2:57 pm

So I heard skid going around everywhere on the internet still don't understand it, is it an insult or meaning something serious?

The question I want answered:

If I am a skid what skid behavior I am giving give a example

If you was a skid what you tell yourself and improve?

And is everyone was a skid before?

Biggy_Asian - August 4, 2026, 2:57 pm

you jew code and then call others antisemantic if they say its not yours and act like you know what its doing when you dont.

If you're on discord or any platform how you do spot a skid? And how you handle it? I'm so curious now

(Aug 4, 2026 02:58 PM)Lowkey Wrote: [\[CITE\]](#) Same thing as gay or stupid.

Stupid can mean gay, and gay can mean stupid.

Script kiddie or SKID can mean you're just being gay, which - just means you're being stupid.

So if someone calls you a skid and you know how to program, they were just calling you stupid. That's funny example, that makes a lot sense because when you steal man code and fucking around with it your gay you like the developer ?
