in order to find partners, you need to be alot more transparent.

how much % comission? what pricings? what can you do to incentivize affiliates -like do you do custom landingpages?

how do you pay out? crypto? how often do you pay out? etc etc etc

what you wrote above says a whole lot of nothing.

hope that helps.

Hi, thanks for your feedback. You're right—I should have included more details. Our pricing isn't fixed, as it depends on demand and the product type. We offer 10-20% commission per sale, and payments are processed after each confirmed sale.
