Must be amazing at coding/no hallucinations/very accurate/ must not have example code and only the real code

[contract=tid]Start Contract[/contract]

This is an absurd request. The best you could probably do is to use ablation or Low Rank Adaptation finetuning on GLM 5.2.

<https://app.deephat.ai/> this is a pretty good web based one.

DramaKing - August 8, 2026, 6:04 pm

What does "not have example code" even mean? If an AI doesn't have all require information, it has to use placeholders.
