Working for me, is it still down for you?

Rahul007rhp - August 8, 2026, 9:03 am

Works fine for me , might be some issue on your end

Deany - August 8, 2026, 10:41 am

Works fine here , maybe close browser and re open it again

Raijin - August 8, 2026, 11:28 am

Try refreshing the page before you open it.

OK thank you! It's strange. :)

Froggerini - August 8, 2026, 2:10 pm

It works for me aswell :D

Sometimes the websocket server either goes down or connection issues can prevent it from connecting for you.

Looks like it's resolved but next time raise awareness here so the Admin can fix it if there is a problem:
