Thread: [botnet source-cross platform , multiple attack methods](#)

lain1337 - August 12, 2026, 4:37 am

i have coded a botnet its cross platfrom(linux and windows) written in golang + C ,contains multiple attack methods,good self rep,persistent

also has modules for exploiting websites(finding exposed files,CMS bruteforce,wp2shell etc)

features recent exploits,

im gonna upgrade the botnet as time goes on

i wanna sell either the full source code or the access, if intrested dm me please

I'd like more information about it.

Machete911 - September 1, 2026, 2:05 pm

thanks bro
