READ BEFORE BUYING

THE \$350 IS FOR THE SOFTWARE PACKAGE.

YOU ALSO NEED THE CORRECT INFRASTRUCTURE.

1. FACEBOOK ACCOUNTS

A realistic starting point is around:

50 ACCOUNTS ? \$200+

We will provide details for 2 account sellers currently used/recommended for this setup.

Their accounts are supplied with the required account data/cookie format used in the recommended workflow.

You may source your own accounts if you wish, but:

THE DEVELOPERS STRONGLY ADVISE USING COMPATIBLE ACCOUNTS AND FOLLOWING THEIR SETUP PROCESS.

Random/unsupported accounts are not guaranteed to work correctly.

2. PRIVATE STATIC IPv4 PROXIES

Expect approximately:

\$5–\$18 PER PROXY

ROUGHLY 3–4 ACCOUNTS PER PROXY

3. WINDOWS RDP

Recommended for running the software remotely:

? \$50 / MONTH

PLENTY OF RDP SELLERS AVAILABLE DIRECTLY ON HACKFORUMS.

4. WARM-UP

Do NOT expect to load 50 accounts and start immediately.

Based on my testing:

ALLOW APPROX. 7–9 DAYS

FOR ACCOUNT + PROXY SETUP AND WARM-UP

Basic process:

RDP -> Accounts -> Proxies -> Login -> Warm-Up -> Monitor -> Find Groups -> Join Groups -> Build Campaigns -> Scale

FOLLOW THE DEVELOPER'S SETUP PROCESS.

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

Goodluck with sales, looks very promising. If I were you, I'd not be using the AI generated designs at the very beginning of my sales thread.

Hey,

Thanks for the feedback, and I appreciate it. I put this in not the right section, there two Cryptography sections on this forum and I made a mistake.

Non the less, will be moved to Premium Sales in 18 days.

A little exposure here doesn't hurt anyone.

In regards to AI generated Sales Thread. I think its fine, it gets the message across and I been here since 2009, its pretty much what every single person posts, why pay someone to design gfx here when you have AI now, and the new standard.

But I may take your advise and add an Intro of text prior to the rest of it.

Best regards,
-D

This is super promising and I'm sure this will be extremely useful for those who struggle with licensing models in their service(s).

Wishing you all the best with sales and if you need someone to provide you with feedback and or perspectives on various things; This is one of those projects I'll gladly contribute too in any way.

Like vyactor mentioned the AI generated branding is one weakpoint which you shouldn't have, products/services like these need a unique and strong sense of branding that preferably plays into the UX your target user prefers or often interacts with.

Thanks I guess I will get someone to re-design the Sales Thread for me then. :)

I also appreciate your help, I love when community supports other members.

Big respect and likewise -
