[B2B LEADS] Custom Qualified Business Data | Email + Phone + Website Required | Custom Niche & Location

If you need business data but do not want thousands of incomplete records, I offer custom-built B2B datasets based on your exact requirements.

You choose the industry, location, quantity and the information that **MUST** be present.

If you request 1,000 companies with a website, public business email and business phone number, companies missing any of those required fields will not count toward your order.

You receive the number of qualified records you actually ordered.

EXAMPLE

Let's say you need:

Industry: Technology Companies

Country: United States

Quantity: 1,000

Required:

- Company Name
- Website
- Public Business Email
- Business Phone

Optional:

- LinkedIn
- Facebook
- Instagram
- City
- State
- Address

The research may identify significantly more than 1,000 companies during processing.

However, if your order requires Website + Email + Phone, only companies containing all three required fields are included toward the final 1,000 records.

You are paying for the qualified final dataset, not for incomplete search results.

YOU CHOOSE WHAT MUST BE INCLUDED

Available requirements can include:

- Business Name
- Industry / Category
- Website
- Domain
- Public Business Email
- Business Phone
- Address
- City
- State / Region
- Country
- Facebook
- Instagram
- LinkedIn
- Other Public Business Profiles
- Source URL
- Collection Date

Not every business publishes all of this information.

For that reason, required-field orders are priced differently from basic business datasets.

BASIC BUSINESS DATA

Suitable when you mainly need matching companies and publicly available information can vary between records.

250 Records: \$9
500 Records: \$15
1,000 Records: \$25
2,500 Records: \$50
5,000 Records: \$85
10,000 Records: \$150

QUALIFIED DATA PRICING

Website required:

1,000 Records: \$35

Website + Phone required:

1,000 Records: \$55

Website + Public Business Email required:

1,000 Records: \$65

Website + Public Business Email + Phone required:

1,000 Records: \$90

WEBSITE + EMAIL + PHONE PACKAGES

100 Qualified Records: \$15
250 Qualified Records: \$30
500 Qualified Records: \$50
1,000 Qualified Records: \$90
2,500 Qualified Records: \$190
5,000 Qualified Records: \$350
10,000 Qualified Records: \$600

For larger quantities, uncommon industries or difficult geographic targets, contact me for a quote.

WHAT DOES "QUALIFIED" MEAN?

If you order:

1,000 Technology Companies
United States
Website REQUIRED
Email REQUIRED
Phone REQUIRED

then a company containing:

Website: Yes
Email: Yes
Phone: No

does NOT count.

A company containing:

Website: Yes
Email: Yes
Phone: Yes

does count.

This continues until the requested quantity of qualifying businesses has been reached, provided sufficient public data exists for the requested market.

INDUSTRIES

Examples include:

- Technology Companies
- Software Companies
- SaaS Companies
- Marketing Agencies
- Web Design Agencies
- Restaurants
- Hotels

- Real Estate Companies
- Construction Companies
- Roofing Companies
- Plumbing Companies
- Dentists
- Clinics
- Accountants
- Law Firms
- Automotive Businesses
- E-commerce Businesses
- Gyms
- Beauty Businesses
- Travel Companies

Many other legitimate business categories can also be researched.

If your niche is very specific, contact me before ordering.

LOCATION TARGETING

Orders can target:

- Worldwide
- Country
- State
- Region
- City
- Multiple selected regions
- Multiple selected cities

Examples:

Technology Companies in California

Restaurants in Germany

Roofing Companies in Texas and Florida

Marketing Agencies in London

Hotels in Italy

Software Companies across Europe

CUSTOM FILTERING

You can also request additional filtering.

Examples:

- Must have website
- Must have email
- Must have phone

- Must have website + email + phone
- Must have LinkedIn
- Must be located in selected cities
- Businesses without websites
- Businesses within a particular niche
- Multiple geographical requirements

If a filter significantly reduces the available market, I will tell you before accepting the order.

WHY IS STRICTLY FILTERED DATA MORE EXPENSIVE?

A request for 1,000 businesses does not necessarily require finding only 1,000 businesses.

For example, several thousand companies may need to be discovered and processed before 1,000 are found that contain every required field.

Incomplete records are filtered out and do not count toward the quantity purchased.

PROCESSING

Datasets are processed for:

- Duplicate businesses
- Duplicate domains
- Duplicate URLs
- Basic formatting issues
- Missing required fields
- Incorrectly structured records
- Unusable empty records

The final dataset is organized so it can be used immediately for legitimate B2B research, prospecting or market analysis.

DELIVERY FORMATS

Available formats:

- XLSX
- CSV
- JSON

Custom formats may also be possible.

FREE SAMPLE

Before purchasing, you can request a sample of up to 10 records.

Send:

Industry:

Location:

Required Fields:

Example:

Industry: Software Companies

Location: United States

Required Fields: Website + Email + Phone

I will prepare a small sample so you can inspect the structure and available data before ordering.

HOW TO ORDER

Send:

Industry/Niche:

Country:

State/Region:

City:

Quantity:

Required Fields:

Optional Fields:

Additional Filters:

File Format:

Example:

Industry/Niche: Technology Companies

Country: United States

State/Region: Any

City: Any

Quantity: 1,000

Required Fields: Website + Public Business Email + Phone

Optional Fields: LinkedIn + Address

Additional Filters: None

File Format: XLSX

DATA SOURCE AND USE

The service works with publicly available business information and is intended for legitimate B2B research, sales prospecting, market research and related business purposes.

I do not provide stolen databases, compromised accounts, private consumer databases, credentials or unlawfully obtained information.

If you have an unusual target, send me the exact requirements and I can tell you whether it can realistically be produced.

TURNAROUND TIME

Delivery time depends on the niche, location, quantity and required fields. An estimated delivery time will be provided before the order is accepted.

Samples are available before purchase.

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
