Opening dispute because the contract is almost coming to expiry, the terms agreed upon with Edmond have not been completed. Requesting full refund (which was accepted by Edmond on telegram). \$300 + \$80 + \$150 + profit. I told Edmond I do not care for the profit, that is up to him but I just want the funds that were invested. I never received an account for \$80, I was told of profit earned but did not receive a withdrawal due to Edmond being busy. Edmond knows his stuff and is making money + method looks like it works, but due to low communication + what I was told was not what I am doing, we both agreed on a refund. So far Edmond has returned \$200. I am opening this just so the contract is available until the money owed is paid back.

I bought his method last week - Earn \$40-\$100 daily (The thread is deleted now.)

I told me to reach out in telegram. I paid him \$250 in total for account setup and fees, he made me wait for a week he told me there is delay with the supplier. he was also very unresponsive. Today he has dissappeared from telegram. Nothing shared with me, nothing delivered.

Am i scammed? His account was good and never imagined he would scam.

Your funds have been sadly lost due to that goofy ass scammer. Sorry bro.
