Thread: [Fastest way collect Bytes](#)

**Klaik863** - August 23, 2026, 12:18 pm

Hey guys, what's the fastest way to collect Bytes? I read a forum post about creating threads, posting replies, and entering lotteries, but those methods are really slow for earning Bytes.

**Cap** - August 23, 2026, 12:19 pm

Posting and being active are the most consistent ways. You can also purchase bytes if you want to. There are some reputable members that offer this service in the marketplace.

## [Currency Exchange](#)

Gambling. You either win lots or can't afford the new shoes.

**Raijin** - August 23, 2026, 12:44 pm

As mentioned already you can purchase bytes. That's the fastest.

**Bastille** - August 23, 2026, 1:04 pm

Purchasing is the fastest, but you can easily earn a lot if you're active on the forum, HQ replies often get Quick Loves (which are 10 bytes each).

Why are you chasing bytes by the way ?

**CyberXero** - August 23, 2026, 1:59 pm

Chase knowledge, share and learn, bytes will come naturally, share HQ threads give HQ responses, build a reputation for "knowing what your on about"

**Deany** - August 23, 2026, 3:06 pm

Post / make threads then they will come naturally

**\_VOX** - August 23, 2026, 3:32 pm

It's simple. Build up a few, use the casino, lose it all. Start again

**MadScientist** - August 23, 2026, 5:23 pm

Hacker themed feet pix, duh?

Jokes aside, maybe, posting actual decent content or code thats behind a byte pay filter and not complete copy paste bs or reshared code for the 42069th time

**CyberXero** - August 23, 2026, 6:30 pm

Just to add a note if you put code behind a byte paypal then you likely wont get as much attention

as you deserve for your code, instead make a HQ threads where you can engage with others sharing your code.
