Thread: [CYBERSEC Content & HackTheBox cert Writeups](#)

ConsoleMan - August 25, 2026, 5:59 am

You want to level up in hacking and offensive security, get your hands on the best content without paying a fortune? Here I propose cyber trainings content from the best certified entities AND Hack The Box certification writeup for you to be sure to pass it !

CYBERSEC TRAINING CONTENT EXAMPLES :

- Hacking & Pentest

OffSec PEN-200 - Penetration Testing with Kali Linux (OSCP)

The gold standard. Hands-on, brutal, and worth every hour. If there's one cert that opens doors, it's this one.

- Red Team

SpecterOps - Adversary Tactics: Red Team Operations

4-day elite training built by the people who literally wrote the book on modern red teaming. Real TTPs, real enterprise environments.

- Malware Development

SANS FOR710 - Reverse-Engineering Malware: Advanced Code Analysis

Go beyond signatures. Understand rootkits, fileless malware, and APT evasion techniques at the assembly level.

- Web & API Security

OffSec WEB-300 - Advanced Web Attacks & Exploitation (OSWE)

White-box web pentesting. Source code review, chained exploits, custom payloads. One of the hardest and most respected web certs out there.

- Phishing & Social Engineering

SANS SEC467 - Social Engineering for Security Professionals

Phishing, vishing, pretexting, physical intrusion. Understand the human attack surface before the adversary does.

- Threat Intelligence & OSINT

SANS FOR578 - Cyber Threat Intelligence

Collect, analyze, operationalize. Track adversaries, build attribution models, and map everything to MITRE ATT&CK like a pro.

71 courses across 10 institutions - EC-Council, OffSec, SANS/GIAC, Hack The Box, TCM Security, Sektor7, SpecterOps, HackSmarter, CQURE, Udemy (warez disallowed).

HACK THE BOX CONTENT :

I offer exclusive, high-quality writeups of some of the most challenging and valuable content on Hack The Box:

ProLabs Writeups

- DANTE

- OFFSHORE

- ZEPHYR
- WANDERER
- APT Lab
- CYBERNETICS

Official Certification Writeups

Complete, validated writeups (including all flags) for:

- CPTS – Certified Penetration Testing Specialist
- HTB CWEE – Certified Web Exploitation Expert
- HTB CDSA – Certified Defensive Security Analyst
- HTB CAPE – Certified Active Directory Pentesting Expert

These materials are designed to help you deeply understand the techniques, methodologies, and thought processes required to succeed in real-world penetration testing and defensive security roles.

Full details on request.

HAPPY HACKING LADS
