Thread: [Android rat web based](#)

trojan3133 - August 27, 2026, 8:34 am

Hello, I need a web-based dashboard for an Android RAT

It needs to support user account creation

The APK must be encrypted/obfuscated and hide itself after installation

It should include all standard RAT features.

Do you have any recommendations, and what is the price?

I need a powerful RAT
