GPT-5.6 Cyber and Daybreak Blue models only.

The Daybreak Red model is not possible because they only give its access to vetted and trusted organizations.

Yes, still available.

ParanoidAndroid - September 4, 2026, 3:34 pm

How long does it usually take to complete the whole process?

OtterLover - September 6, 2026, 3:51 am

If the GPT subscription is canceled, does it still remain? If I reconnect the subscription later after it's been canceled, will Cyber and Daybreak Blue still be linked?

Yes, it will still remain even after your sub expires.

How long does it take to do the process and does it put your account at any risk in the future?

Stanley - September 9, 2026, 9:59 am

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

I have some questions: what is this for? Will this stop ChatGPT from replying, "That goes against the policies of such-and-such site; I can't help you"?

Any reviews ??

It is for lowering ChatGPT's safety guardrails. It obviously won't completely remove them though. So it's only for people who know how to work around them.

I plan on grabbing this, will leave review when I get it and have some time to mess around with it.
