Thread Bounty System
Reward Helpful Answers With Forum Credits

MyBB: 1.8.x • Version: 1.0.0 • Type: Premium Plugin
Price: \$200

Quote: Turn questions and support threads into a reward-based system.

Thread Bounty System allows members to place bounties on threads using your forum's existing credit system. When the thread author accepts a reply as the solution, the responder automatically receives the bounty credits.

Screenshots

Main Features Uses your existing forum credit/points system

Escrow-style bounty system

Custom minimum and maximum bounty amounts

Accepted solution system

Automatic credit payment to the winning responder

Increase active bounties

Configurable bounty expiration

Automatic refunds

Moderator award, cancel and refund controls

Permanent bounty transaction history

ACP bounty management

Bounty statistics on user profiles

Bounty leaderboard

Bounty badges in thread listings

Accepted answer highlighting

Optional automatic thread closing

Optional solved thread prefix

Allowed forum and usergroup controls

MyAlerts 2.1.0 integration

No MyBB core file modifications

How It Works

Member creates a thread and enables a bounty.

The bounty amount is deducted and reserved from their available credits.

Other members reply with solutions.

The thread author clicks Accept as Solution.

The responder receives the bounty automatically.

The thread is marked as solved and the transaction is logged.

MyAlerts Integration

Supports MyAlerts 2.1.0.

Alerts can be sent when: A bounty thread receives a reply

A member's answer is accepted

A member receives bounty credits

A bounty is refunded

MyAlerts is optional. The plugin works normally without it.

Admin & Moderator Controls

Administrators and authorized moderators can:View all bounties

Filter by Open, Awarded, Expired, Cancelled or Refunded

Search by Thread ID, UID or Username

Force award an open bounty

Cancel a bounty

Refund unresolved escrow

Inspect complete transaction history

Design / Theme Customization

The screenshots above show the plugin's basic/default page design.

The plugin can be redesigned to match your forum's:Color scheme

Theme style

Buttons

Panels

Tables

Dark or light layout

Custom theme redesign is not included in the \$200 plugin price and requires an additional charge depending on the amount of customization needed.
