"(Account bans not covered because bans happen due to user misuse, not the upgrade.)"

What would "user misuse" be to warrant a ban unrelated to a recently done upgrade to the account?

I ask because what and how I talk to the gpt would ban me on any platform, so If I haven't even been so much as warned for years then I'd be asking questions on why did I get banned after upgrading...

The "user misuse" is basically doing stuff that is against OpenAI's ToS. For example, trying to make a reverse proxy out of your account quota, distilling their models, trying to do blackhat stuff (such as trying to hack an unauthorized target) using their AI models, etc.

Is it possible to purchase monthly? For how many months do you sell?

How is it possible that the ChatGPT Pro 20x activation will work, when OpenAI no longer offers the 20x plan? Very interested in buying, thanks.

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.
