Profile Privacy Pro
Advanced Profile Privacy Controls for MyBB

MyBB: 1.8.x • Type: Premium Plugin
Price: \$25

Quote:Profile Privacy Pro gives members detailed control over who can view different parts of their profile, while administrators decide which usergroups are allowed to use these privacy features.

Main FeaturesComplete profile privacy

Avatar privacy

Last visit privacy

Contact details privacy

Posts visibility

Threads visibility

Reputation privacy

Custom profile fields privacy

Individual privacy settings for each profile section

Admin-controlled usergroup access

No MyBB core file modifications

How It Works

Members can control the visibility of different profile sections individually instead of hiding their entire profile.

For example, a user can keep their profile visible while restricting their contact details, reputation, last visit information or custom profile fields.

Administrators remain in control and can choose which usergroups are allowed to use the privacy system.

Screenshots

Design / Theme Customization

The screenshots show the plugin's basic/default design.

The interface can be redesigned to match your forum's colors and theme style.

Custom design work is available for an additional charge.

Ideal ForPrivate communities

Premium forums

Gaming communities

Social forums

Marketplace forums

Price: \$25
